\*\* Evaluation was completed on these dates.

iTech Labs has previously tested the Random Number Generator (RNG) for PartyCasino. Our evaluation of PartyCasino games consisted of game rules review, functional tests, payable verification, Return To Player

(RTP) calculation and source code review. We have found that the above PartyCasino games are fair and the casino system is reliable and resilient.

iTech Labs has also verified procedures for software integrity. This includes change control mechanisms and regular monitoring of critical modules. All major functional changes including new games that constitute major changes are independently tested and certified.

**\*Notes:**

PartyCasino games were tested according to the relevant Alderney Gambling Control Commission (AGCC) standards. The software provider or operator of the gaming site may not necessarily be licensed in the gaming regulatory jurisdiction whose technical standards have been applied in the testing process. Before making enquiries with the gaming commission, check whether the gaming commission's logo is present on the gaming site's home page or undertake independent enquiries with the operator of the website.

**Disclaimer**

While it is not possible to test all possible scenarios in a laboratory environment, iTech Labs has conducted a level of testing appropriate for a component test of this type.
